

The inaugural 'Lichfield ArtFest' is a community-based celebration of the visual arts. The festival is an initiative of the Lichfield Society of Artists to mark its 75th anniversary. An ambitious programme of exhibitions, live demonstrations, open studios and art trail activities will feature art forms ranging from conventional painting mediums, ceramics and textiles to calligraphy, stained glass and 3D virtual reality technology. The ArtFest is a collaboration involving professional and emerging artists, creatives of all ages and abilities, college students, pupils from local schools and members of several community organisations for whom artistic creativity is an important activity. Venues include many of the city's most iconic buildings as well as several surprising locations. Admission to all venues and activities is free. Full programme details to be confirmed. See our website for further details (<https://lichfieldsocietyofartists.co.uk>) or contact us by email (lichfield.artists@gmail.com).
